For the three months ended 30 June 2017

17. FAIR VALUE FINANCIAL INSTRUMENTS (Continued)

Loans and advances

For variable rate loans and advances, the carrying amount is a reasonable estimate of fair value. For fixed rate loans and advances, fair values have been estimated using a discounted cash flow model with reference to market interest rates, and rates of estimated credit losses.

Other financial assets

For other financial assets, the carrying amount is approximately equal to the fair value.

Deposits by customers

For fixed term deposits by customers, fair values have been estimated using a discounted cash flow model with reference to market interest rates. For other deposits by customers, such as call and variable rate deposits, the carrying amount is a reasonable estimate of fair value.

Due to/from related parties

For due to/from related parties, carrying amounts in the balance sheet are a reasonable estimate of fair value for these assets.

Other financial liabilities

For other financial liabilities, the carrying amount is equivalent to the fair value.

18. CREDIT EXPOSURE CONCENTRATIONS

Credit exposures to individual counterparties

Credit exposure concentrations are disclosed on the basis of actual exposures and gross of set-offs. Peak end-of-day aggregate credit exposures have been calculated using the Bank's tier one capital at the end of the quarter.

The number of individual counterparties, excluding connected persons, where the period end and peak end-of-day aggregate actual credit exposures, net of individual credit impairment allowances, equalled or exceeded 10% of the Bank's shareholder's equity:

- as at 30 June 2017 was nil (31 March 2017: nil and 30 June 2016: nil)
- in respect of peak end-of-day aggregate credit exposure for the quarter ended 30 June 2017 was nil (31 March 2017: nil and 30 June 2016: nil)

Credit exposures to individual counterparties (not being members of a group of closely related counterparties) and to groups of closely related counterparties exclude exposures to connected persons, to the central government of any country with a long-term credit rating of A- or A3 or above, or its equivalent, or to any bank with a long-term credit rating of A- or A3 or above, or its equivalent. These calculations relate only to exposures held in the financial records of the Bank and were calculated net of individually assessed provisions.
